## AUSTRALIAN SCHOOL-BASED APPRENTICESHIPS AND TRAINEESHIPS (ASBA'S)

*Investing in the future of your workforce*

Can you commit to employing a local student in your business for one day a week?

- It is an opportunity to give back to your local community whilst potentially preparing your student to be a long term employee
- An extra pair of hands to achieve your business objectives
- Traditional trade apprenticeships in building and construction, automotive, hairdressing etc. are now available
- Traineeships are also available in most areas such as hospitality, child care and more

This program incorporates training and paid employment into a student's secondary school curriculum.

The program gives students the opportunity to complete their VCE or VCAL qualification and complete a Nationally Accredited VET qualification.

Over the 2014-2015 period, Apprenticeships Matter was involved in the placement and support of nearly 1000 ASBA's!

### INVEST IN THE NEXT GENERATION TODAY!!!
