WORKPLACE BASED TRAINING PLAN

For Trainee: Peter Pink

PLEASE READ BEFORE COMPLETING THIS TRAINING PLAN

This **Training Plan** is a document to be developed by the Registered Training Organisation (RTO), the employer and the apprentice/trainee. It outlines who provides the training and assessment and how, when and where it occurs. It should be customised within the qualification packaging guidelines to accommodate the *individual* needs of the apprentice/trainee and the workplace, and to provide enough details to assist employers to meet their obligations under the Training Contract.

This **Training Plan** is a working document to be used for the duration of the Training Contract. Copies, including updates, should be accessible at the workplace as a reference and to monitor progress.

For more detail on the regulatory framework, and details on how to Develop, Document, Implement, and Monitor a **Training Plan**, see Training Plan Guidelines.

This **Training Plan** comprises three **Parts – I, II and III**.

Part I records relevant details of the Training Contract and the parties responsible. It outlines proposed overall time lines for both the structured training and the Training Contract.

Part II includes the selected units of competency as discussed during the pre-training review and is used to record details of assessment as competence is achieved. It should be reviewed and updated as required. **Part II** may be used as evidence of completion of the structured training and for trainees, the Training Contract.

Part III records details of the proposed training and assessment arrangements in cycles of not more than 3 months in duration. At the end of each cycle an evaluation should be undertaken and a plan developed for a further cycle. Note that some competencies assessed over an extended period may therefore appear on **Part III** over several cycles.
